

Aquos 16 -18

Monobrush washing and cleaning machine ideal for reduced surfaces as small warehouses and medium supermarkets up to 1.800 m²/h. The two tanks, on for the solution and the recovery one both with 30 litres capacity ensure a good working autonomy. The machine is manufactured with high quality components and grants bright performance and good manageability.

		Aquos 16	Aquos 18
dimensions / weights	length	mm	900
	width	mm	430
	height	mm	900
	brush/es quantity and diameter	n°/mm	1 x Ø 410
	squeegee width	mm	710
	weigth without battery	kg	60
data	scrubbing width	mm	410
	working capacity per hour	m ² /h	1.640
	max. autonomy	h	3
	solution tank capacity	l	30
	recovery tank capacity	l	30
	traction speed	km/h	0 - 4
motors	suction engine	V/w	24 / 500
	motor/s brushes	n°/V/w	1 x 24 / 500
	voltage	V/Ah	2x12 / 100

Aquos 21-26-32

Washing and cleaning machine with ride-on operator equipped with double brush ideal for medium and long surfaces up to 3.800 m²/h. The solution tank with capacity from 92 to 130 litres and the recovery tank with capacity up to 125 litres ensure the machine to work in total autonomy. It is equipped with electric traction to facilitate the manoeuvres and do not stress the operator.
